

I just wanted to let you know how amazing Nichie, Vendy, and staff are! I could not believe the transformation even in the first lesson I had with Nichie! 9 months ago my family and I brought home an 8 month old out of control Samoyed mix. Our house was flipped upside down and inside out! She would steal things tear them up to get my attention, tear up the house and the back yard!!!!!! I had to stay on top of her 24/7 with no rest! When I would take her for a walk she would flip out if she saw another animal!!! It was terrible!!! I would take her for a walk everyday sometimes even 1 ½ hour and in that time she would NOT sit for me, she would pull me down the street, bark like crazy and jump on and nip other dogs! Also could never tire her out! I took her to 2 other trainers and they couldn't do anything with her. I tried trainer and nothing worked. Now she did calm down in the house a little after a while. We would have NEVER gotten rid of her but we were at a loss at what to do I tried everything!!! Didn't think Bonnie could be trained!!! Thanks to Pawsitive power dog training our baby is a perfect little Angel and we can relax and breathe now! It's nice to be able to come home and relax or go for a walk and have Bonnie focus on me when another dog is around and not pull me down the street barking!!! These guys are amazing and I thank God for them and everything they did for us. Also while at training Bonnie picked out her play mate :o) We never thought we would be able to have another dog because of Bonnie issues but while are training she fell in love with 3 month old Samoyed! We think it's funny that Bonnie picked out our other dog. They play and play and play! She is so good for Bonnie! They just love each other and balance the family out. They both are both so loving well behaved babies! Thank you for everything you guys are amazing and work miracles!

Please get them a raise they are amazing

Dawn (Owner) and Bonnie Hardin
